

That's getting-business-done time. That's why you expect your systems to be up and running 24/7. Because even 30 minutes without computers can mean a lost order, a lost customer, or lost staff productivity.

How can you ensure the next hard drive crash, network outage, or virus attack won't derail your business? **Guarantee** your technology is **trouble-free** with the **B.E.S.T.** Business Enhanced Support Technology from Computer Troubleshooters.

UPTIME DOWNTIME

Virus problems... network outages... hard drive crashes... spyware slowdowns... server blowups... data loss... failed backups... maintenance problems... Any one of these downtime nightmares wreaks havoc on your business, costing you real \$\$\$ in lost revenue and productivity.

How can you **guarantee** your technology is **trouble-free**? With the B.E.S.T. Business Enhanced Support Technology from Computer Troubleshooters.

B.E.S.T. is a revolutionary new business enhancement offering that blends the ultimate in technology management with best practices developed by Computer Troubleshooters experts worldwide for keeping computers and networks trouble-free.

Most IT consultants make money when your computers are down and make no money when they're running fine. For a simple monthly fee, we guarantee 24/7 uptime and 0% downtime or we pay you! **If at anytime your computer or network is down, we'll pay you \$100 for every hour you lose. That's our Trouble-Free Guarantee.***

For more information regarding our revolutionary B.E.S.T. service and Trouble-Free Guarantee, or any of our technology support offerings, please visit www.ctsmilwaukee.com/best or call you local Computer Troubleshooters office.
